

Announcement of Journal of Computational Mathematics Best Paper Prize

Guideline

The JCM Best Paper Prize will be established by the Journal of Computational Mathematics (JCM) in 2008. The prize will be awarded to the author(s) of the most outstanding paper, as determined by the prize committee, published in JCM in the two calendar years before the year of the award.

Award Time

The prize will be awarded every other year.

Description of the Award

The award will consist of US\$1000 for the authors of each winning paper, and additional funds may also be available as a contribution to expenses in coming to the award presentation (usually taking place at an international conference in China).

Prize Committee

The prize committee will consist of five members to be nominated during each award cycle by the editor-in-chief and managing editors. The prize committee will solicit nominations for the prize from editors of JCM and from other members of the scientific community. Members of the prize committee are not eligible for an award.
